

HAUS & LUFT

2 in 1 appliance (humidifier + fan)

Evaporative air humidification system - the fan draws in dry air from the room and returns it through a damp mat, at the set humidity level. In addition to the natural humidification process by evaporation, the air is simultaneously cleaned of dust and dirt particles.

- 3l water tank
- up to 30 hours of continuous operation
- humidification of rooms with an area of up to 44 m²
- 4-stage humidification intensity
- regulation of the humidity level in the range of 40-75% every 5%
- hygrometer that shows relative humidity
- night mode (the ability to turn off the display)
- timer from 1 to 12 hours (every hour)
- LED display
- automatic filter drying when the humidifier runs out of water
- night lamp function (7 colors of light)
- spout for pouring water
- drawer for essential oils
- indicator light signaling the need to replace the filter
- fan function (operation without humidification)
- efficiency up to 300 ml/h
- noise level 24-47 dB
- dimensions: 218 x 218 x 330 mm
- power supply: 12V 1A 12W
